**Object : Invitation to Join the Board of Advisors for a Transformative Initiative Across 120 Countries in Africa, America, Europe, and Asia.**

Dear Hub Managers,

I hope this letter finds you well. I am writing to present a unique partnership opportunity that aligns with our shared commitment to fostering entrepreneurship and creating sustainable job opportunities.

At Africa XYZ, our mission is to build the world's largest Pan-African investment bank to protect and enrich the lives of Africans around the world. Our top priority is to finance the creation of 300 million jobs for youth by 2030.

Over the next 10 years, we aim to reach our goal of 300 million jobs by supporting 3 million companies in the early stage, growth stage, as well as aspiring entrepreneurs. Each of these companies is expected to create 50 to 100 jobs.

### **A) First step:**

Between 2024 and 2025, we aim to secure \$150 billion from governments, corporate partners, and private donors. This funding will be dedicated to investing in 3 million startups, aspiring entrepreneurs, and established businesses across 120 countries, spanning Africa, Latin America, North America, Europe, and Asia (as shown on the map above). The initiative anticipates creating 30 million immediate jobs annually, fostering income growth, and developing robust entrepreneurial ecosystems.

In pursuit of this ambitious goal, we are seeking strategic collaborations with 300 esteemed hubs, including coworking spaces, incubators, accelerators, maker spaces, and technology parks.

### **B) Our proposal / Selection Process:**

We are reaching out to 29,565 hubs worldwide, inviting them to join our Board of Advisors. The top 1% (300) hubs that showcase alignment with our vision and a commitment to shaping a better future for Africa will become esteemed members of our Board of Advisors. Your participation will not only contribute to positive changes in the lives of Africans worldwide but also unlock exclusive commercial opportunities. Here are the compelling advantages that come with joining our board:

### **C) Advantages of joining our board of Advisors:**

#### **1. Policy Drafting and Global Influence:**

Together, we will collaborate on drafting policies to positively impact millions of entrepreneurs and job seekers worldwide. For instance, we may propose a policy mandating companies we fund to set a baseline salary of US\$200, addressing regions where the minimum wage can be as low as ₦30,000 (US\$36.5) like in Nigeria for example.

#### **2. Decision-Making Power:**

Each board member possesses a voting right utilized during assembly meetings addressing critical issues or optimizing resource utilization.

### **Example Scenario:**

Determining the optimal approach to stimulate job creation:

- **Option 1 - Bottom top approach** : Offer interest-free loans of \$50,000 to 3 million aspiring entrepreneurs, enabling immediate creation of 10 jobs each, scaling their businesses, and repaying within 18 months.
- **Option 2 - Conservative approach:** Provide interest-free loans and equity investment ranging from \$250,000 to \$2 million to businesses that initially create a minimum of 10 jobs over a year, demonstrating sustainable revenue generation. This ensures they can cover charges (salaries, rent, etc.). The funding allows immediate expansion, creating 50-100 jobs.

In this scenario, each of the 300 Board of Advisors members expresses their viewpoint, defends their case, and votes. The decision is based on the total votes of the majority.

### **3. Exclusive Commercial Opportunities:**

To achieve our goal of providing jobs to 300 million youth, we introduce the "**Talent Identification Card,**" designed to identify, evaluate, train, and provide job opportunities to 300 million young individuals across Africa and its Diaspora<sup>1</sup> by 2030. This card also aims to allow cardholders to work in any African Union country, aligning with the AU's commitment to fostering economic development and integration among African countries.

The exclusive distribution of Talent Identification Cards to 300 million individuals, with a revenue potential of \$3 billion, is reserved solely for the hubs associated with members of the Board of Advisors worldwide.

---

<sup>1</sup> The African Union (AU) defines the African diaspora as consisting: "of people of native or partial African origin living outside the continent, irrespective of their citizenship and nationality and who are willing to contribute to the development of the continent". Its constitutive act declares that it shall "invite and encourage the full participation of the African diaspora as an important part of our continent, in the building of the African Union".

#### 4. Facilitating Funding for your hubs' Members:

As a coworking/hub, you are in contact with great startups, entrepreneurs, and business owners every day in your space. We will give you the opportunity to conduct due diligence. This involves a comprehensive examination and assessment of each business, culminating in your final recommendation regarding the investment opportunity.

This will enable you to propose a reliable source of funding to your members, adding significant value.

#### 5. Global network & Collaborative Approach:

In addition to capital, we aim to empower entrepreneurs, startups, and aspiring entrepreneurs with resources facilitating rapid growth and expansion. These resources encompass business registration assistance across 120 countries, support for visa and residency applications, assistance in setting up bank and payment accounts, access to a talent pool through the Talent Identification Card, and opportunities to tap into global markets.

Consider Paulo, an entrepreneur based in Brazil aspiring to expand operations to South Africa. Who better to guide them through business registration, visa applications, talent acquisition, team building, etc., than one of our 300 advisor hubs?

What's the overall cost of this comprehensive package? Estimates range from \$1,000 to \$5,000. Each of you can provide these services within a collaborative, interdependent, and non-competitive environment. By leveraging the collective business acumen of our diverse advisors, each contributing unique insights, we ensure the success of this initiative.

#### D) Expectations from aspiring/future board advisors:

Leverage your regional business knowledge to contribute to the success of the initiative, fostering collaboration over competition.

#### Annual payment for a board seat

1 hand = 1 vote	1 hand = 2 votes	1 hand = 3 votes
\$997	\$1,597	\$2,497

PS: The greater your investment in us, the more you will be rewarded with increased decision-making power and additional commercial opportunities.

**1- Scenario for Decision-Making Power:**

- John: 1 vote
- Sam: 1 vote
- Jim: 3 votes

Imagine a meeting where Jim proposes a blue color for the Talent Identification Card, associating it with intelligence. However, John and Sam prefer a red card. During the vote, John and Sam oppose (2 hands = 2 votes in total), while Jim supports (1 hand = 3 votes). Jim wins (as 2 votes < 3 votes), and we adopt the blue color, even though two people are against.

In case John and Sam are dissatisfied, they can appeal. A general assembly would then be organized, with all 300 members voting on the same issue using the same process, and the result obtained will be final.

**2- Scenario for Commercial Opportunities Distribution in Proportion to Votes:**

Now, let's consider John, Jim, and Sam dividing a \$1 million payment for the Talent Identification Cards distribution. The total amount (\$1 million) is divided by the number of votes (John: 1 + Sam: 1 + Jim: 3 = 5 in total). Each person's share is calculated by multiplying \$200,000 by their respective vote number.

John	Sam	Jim
\$200,000 x 1	\$200,000 x1	\$200,000 x 3 = \$600,000

**Conclusion: Why Africa XYZ**

Since our inception in 2019, starting with the creation of websites for \$100 each, our mission at Africa XYZ has been clear — to enhance the lives of Africans through technology.

During my research on the distinction between commercial and investment banking, I discovered that Investment banking played a pivotal role in building America. The first railways, mines, and IT companies in Silicon Valley owe their existence to the support of investment

banks. This revelation inspired me to believe that if investment banks could help build America, they could similarly contribute to the growth of Africa and its Diaspora<sup>1</sup>.

From January 2023 onwards, we embarked on a mission to establish the world's largest Pan-African investment bank, committed to safeguarding and enriching the lives of Africans globally.

**Our Top 5 Objectives by 2030:**

1. Train and provide jobs for 300 million youth.
2. Help build 500 unicorns (Private companies valued at a minimum of \$1 billion).
3. Provide digital financial services to 1 billion Africans.
4. Provide electricity to 530 million people.
5. Create an Africa that can feed itself and the world by investing in Sustainable and innovative Agriculture and Agri-business.

Attempts worldwide to replicate the success of Silicon Valley have fallen short. Silicon Valley isn't just a place; it's a network, a community with a distinctive mindset — a mindset that believes in trying, building, and persevering despite failures. It's the mindset of embracing opportunities, giving it your all, and having fun along the way.

Now, I pose a question to you: Do you share the Silicon Valley mindset? Do you believe that, with determined effort, we can collectively achieve our shared goals?

**Next Steps:**

If you resonate with our vision, can contribute value to help us realize our mission, and aspire to join the esteemed 300 members of the Board of Advisors, kindly respond to this letter or schedule a meeting using [this link](#). We would be honored to engage in further discussions at your earliest convenience.

Sincerely,

*Anderson Anonzo*
